

NOTICE OF ANNUAL MEETING OF SHAREHOLDERS

Dear Shareholder,

You are receiving this notification as Héroux-Devtek Inc. (the “**Corporation**”) has elected to use the notice and access model (“**Notice and Access**”) provided for under recent amendments to Regulation 54-101 *respecting Communication with Beneficial Owners of Securities of a Reporting Issuer* for the delivery of meeting materials to its shareholders for the Annual Meeting of the shareholders of the Corporation to be held on August 1st, 2013 (the “**Annual Meeting**”). However, together with this notice, shareholders continue to receive a proxy (in the case of registered shareholders) or a voting instruction form (in the case of non-registered shareholders), enabling them to vote at the Annual Meeting. The Corporation has adopted this alternative means of delivery in order to further its commitment to environmental sustainability and to reduce its printing and mailing costs.

The Corporation will bear all expenses in connection with the solicitation of proxies.

VOTING BY PROXY

Shares represented by properly executed proxies in favour of the persons designated in the enclosed form of proxy will be voted or withheld from voting on any ballot that may be called for and, if the shareholder specifies a choice in respect of the matters to be voted upon, the shares shall be voted or withheld from voting in accordance with the specification made by the shareholder. **If no specification is made, such shares will be voted for (i) the election of the directors specified in this Circular and (ii) the appointment of the independent auditors named in this Circular and the fixing of their remuneration by the directors.**

The enclosed proxy confers discretionary authority upon the persons named therein with respect to amendments or variations to matters identified in the Notice (as defined below) relating to the Meeting and other matters which may properly come before the Meeting other than for the election of a director who would not be named in this Circular. At the date of this Circular, the management of the Corporation is not aware that any such amendments, variations or other matters are to be presented for action at the Meeting.

NOTICE AND ACCESS

The Corporation has elected to use the notice and access model ("**Notice and Access**") provided for under recent amendments to Regulation 54-101 *respecting Communication with Beneficial Owners of Securities of a Reporting Issuer* for the delivery of meeting materials to its shareholders for the Meeting, namely the Circular, consolidated financial statements for the year ended March 31, 2013 and management's discussion and analysis (collectively, the "**Meeting Materials**"). The Corporation has adopted this alternative means of delivery in order to further its commitment to environmental sustainability and to reduce its printing and mailing costs.

Under Notice and Access, instead of receiving printed copies of the Meeting Materials, shareholders receive a notice (the "**Notice**") with information on the date, location and purpose of the Meeting, as well as information on how they may access the Meeting Materials electronically.

Shareholders with existing instructions on their account to receive printed materials and those shareholders with addresses outside of Canada and the United States will receive a printed copy of the Meeting Materials with the Notice.

The Corporation urges shareholders to review this Circular before voting.

ELECTION OF DIRECTORS

The affairs of the Corporation are managed by a Board of Directors of the Corporation (the "**Board**"). The members of the Board are elected annually, on an individual basis, at each annual meeting of shareholders to hold office until the next annual meeting unless, prior thereto, he or she resigns, or the office of such director becomes vacant by death, removal or other cause.

At the last annual meeting of shareholders, eight (8) directors were elected as Mr. Christian Dubé, who had been serving as a director of the Corporation since 2004 and who was nominated for re-election at such meeting, resigned as director on August 1, 2012. As a result, by resolution of the Board adopted on August 1, 2012, the precise number of directors was decreased from nine to eight directors.

By resolution of the Board adopted on May 23, 2013, the precise number of directors has been fixed at eight directors. All nominees have served continuously as directors of the Corporation since their appointment or first election in such capacity with the exception of Mr. James J. Morris, being a new nominee proposed for election as

directors of the Corporation. Finally, Mr. Claude Boivin, currently a director of the Corporation, is not part of the nominees that are being proposed as directors for election by the shareholders at the Annual Meeting, and therefore will not be reelected as director for the ensuing year. Therefore, a total of eight nominees are being proposed as directors for election by the shareholders at the Meeting. The following table sets out the names of said nominees for election, their present principal occupation, the years in which they became directors of the Corporation and the number of Common Shares of the Corporation owned, directly or indirectly, or controlled or directed by the nominees. **The persons designated on the enclosed form of proxy intend to vote for the election of the nominees whose names are set forth below.** Each of the nominees has provided the information as to the shares of the Corporation he or she beneficially owns or over which he or she exercises control or direction, as at June 14, 2013.

4. Orientation and Continuing Education

New directors participate in an initial information session on the Corporation in the presence of management representatives. In addition, they are furnished with appropriate documentation relating to the commercial activities of the Corporation and the internal organization of the Corporation and with a copy of the Board's Manual. The meetings in which new directors participate (including annual strategic planning sessions) as well as discussions with other directors and with management permit new directors to familiarize themselves rapidly with the operations of the Corporation.

The Board's Manual is updated periodically and contains pertinent material and information on the Corporation, the Board, and its Committees. Directors meet with the Chairman of the Board, the CEO and members of Management to discuss the Corporation's operations and are given periodic presentations on a particular product line or on a specific business development. New Directors benefit from guided tours of the Corporation's installations. From time to time and before each meeting of the Board, each Director is provided with publications concerning recent industry's developments, new applicable legislation as well as any relevant information.

5. Ethical Business Conduct

- (a) On February 10, 2005, the Board adopted a *Code of Conduct* to help the Corporation's directors, officers and employees to take a consistent approach on key integrity issues. The *Code of Conduct* may be obtained upon written request to the Secretary, Héroux-Devtek Inc., Suite 658, East Tower, Complexe Saint-Charles, 1111 Saint-Charles Street W., Longueuil, Québec, Canada, J4K 5G4.

The Board has the responsibility of reviewing and monitoring the controls and procedures within the Corporation to maintain the integrity and accuracy of its financial reporting, internal controls and disclosure controls, and management information systems, and compliance with its *Code of Conduct*. The Board discharges his responsibility of monitoring compliance with the *Code of Conduct* through the Human Resources Committee.

The Corporation has also developed and implemented and the Board has approved various corporate policies including a corporate disclosure and insider trading policy and a whistle blower policy. The Corporation will periodically ask employees to acknowledge their commitment to the spirit and letter of the Corporation's Code of Conduct. A procedure has been put in place so that employees may raise an integrity concern by written or oral communications and it may also be anonymous.

- (b) In order to ensure directors exercise independent judgment in considering transactions and agreements in respect of which a director or executive officer has a material interest, should it occurs, the Board will ask

the director or executive officer interested in the transaction or agreement to withdraw during the discussions pertaining to such transaction or agreement.

6. Nomination of Directors

The Human Resources Committee is responsible for identifying and recommending potential appointees to the Board. In this regard, the committee maintains an “evergreen” list of potential nominees. New nominees must have a track record in general business management, special expertise in an area of strategic interest to the Corporation, the ability to devote the time required, shown support for the Corporation’s mission and strategic objectives, and a willingness to serve. The Human Resources Committee is composed of at least three directors appointed by the Board, each of whom the Board has determined to be independent as contemplated by the laws, regulations and listing requirements to which the Corporation is subject. The CEO of the Corporation takes part in the work of the Human Resources Committee as a non-voting member and removes himself where the Human Resources Committee decides on his remuneration and on corporate governance matters.

7. Compensation

The Human Resources Committee is charged with reviewing on an annual basis the compensation and benefits paid to the directors in light of market conditions and practice and in light of risks and responsibilities.

8. Other Board Committees

The Board has no standing committees other than the Audit Committee and the Human Resources Committee.

9. Assessments

The Human Resources Committee is responsible for monitoring the effectiveness of the Board and the performance of the directors. The process is facilitated by questionnaires sent by the Chair of the Human Resources Committee to enable individual directors to provide feedback on the effectiveness of the Board and its Committees. Following receipt of the questionnaires, the Chair of the Human Resources Committee contacts each director separately in order to discuss their answer to the questionnaires. The Human Resources Committee assesses the operation of the Board and the committees, the adequacy of information given to directors, communication between the Board and management and the strategic direction and processes of the Board and committees. The Human Resources Committee recommends changes to enhance the performance of the Board based on the survey feedback.

10. Majority Voting Policy

The Board, upon recommendation of the Human Resources Committee, adopted and implemented a majority voting policy. Such policy provides that in an uncontested election of directors of the Corporation, any nominee who receives a greater number of votes “withheld” than votes “for” will promptly tender his or her resignation to the Chairman of the Board following the Corporation’s meeting of shareholders. The Human Resources Committee shall consider the resignation offer and shall recommend to the Board whether to accept it or not. The Board will make its decision and announce it in a press release within 90 days following the meeting, including the reasons for rejecting the resignation, if applicable. A director who tenders a resignation pursuant to this policy will not participate in any meeting of the Board or the Human Resources Committee at which the resignation is considered.

In order to meet best corporate governance practices, on February 8, 2007, upon recommendation of the Human Resources Committee, the Board approved the introduction of a minimum share ownership requirement for members of the Board. This minimum requirement was set at an amount equal to five times the amount of the annual retainer fees payable to members of the Board. On August 4, 2010, this minimum requirement was reduced by the Board upon recommendation of the Human Resources Committee to be set at an amount equal to three times the amount of the annual retainer fees payable to such members. Directors have a period of three years to comply with this requirement.

Stock Appreciation Rights Plan (the “SAR Plan”)

The SAR Plan for non-employee directors adopted by the Board in September 2001 was intended to enhance the Corporation’s ability to attract and retain high quality individuals to serve as members of the Board and participate in the Corporation’s long-term success and to promote a greater alignment of interests between the Corporation’s non-employee directors and its shareholders.

Upon recommendation of the Human Resources Committee, by resolution of the Board adopted on August 4, 2010, it has been decided that no additional SARs will be granted under the SAR Plan. All outstanding SARs will remain effective until their expiry/exercise date. In May 2011, the SAR Plan was replaced by the Deferred Share Unit Plan as hereinafter described.

Until the expiry/exercise of all outstanding SARs, the SAR Plan will be administered by the Human Resources Committee. The SAR Plan enables the participants to receive, on the exercise date of a SAR, a cash amount equal to the excess of the market price of a common share on the exercise date of the SAR over the exercise price of the SAR. The exercise price of each SAR granted is determined on the basis of the average closing price of the common shares of the Corporation traded on the TSX, for the five trading days preceding the date of the award of the SAR. The SARs generally may be exercised after the first anniversary of the date of grant until the sixth anniversary of the date of grant, subject to a vesting schedule. SARs are vested or earned over a four-year period.

In November 2012, upon recommendation of the Human Resources Committee, the Board adopted a resolution to amend the SAR Plan in order to allow the Human Resources Committee to adjust the exercise price of outstanding SARs when the Corporation makes a special distribution in order to compensate holders of SARs for the loss of value. The amendments were commanded in light of the Special Distribution (as defined hereinafter).

At March 31, 2013, on a cumulative basis, 39,000 SARs were still outstanding at a weighted-average granted value of \$2.78 (130,500 SARs at a weighted-average granted value of \$6.32 at March 31, 2012), which expire at various dates between fiscal years 2014 and 2016.

Deferred Share Unit Plan (the “DSU Plan”)

The DSU Plan for non-employee directors adopted by the Board in May 2011, as amended, is intended to enhance the Corporation’s ability to attract and retain high quality individuals to serve as members of the Board and participate in the Corporation’s long-term success and to promote a greater alignment of interests between the Corporation’s non-employee directors and its shareholders. The DSU Plan was adopted in replacement of the SAR Plan.

The DSU Plan is administered by the Human Resources Committee. The DSU Plan enables the participants to receive upon termination of service as director, a cash amount equal to the market price of a common share on the termination date for each vested DSU (the “**DSU Payment**”). The number of DSUs to be granted is determined on the basis of the average closing price of the common shares of the Corporation traded on the TSX, for the five trading days preceding the date of the award of the DSUs.

An eligible director under the DSU Plan may elect annually to receive up to 50% of its annual retainer fees in DSUs. In addition, all non-employee directors will generally receive a discretionary number of DSUs that could represent up to \$15,000 on the date of their grant. The portion of DSUs granted to a director as annual retainer fees will vest in stages over 12 months starting on August 1st of each year of grant with 1/12 of the DSUs vesting on the last day of each month.

The DSU payments are only made upon termination of service of a participant either by resignation, upon dismissal, at the end of the term of office or upon disability or death of such participant.

The DSU Plan was adopted on May 26, 2011. At March 31, 2013, 75,302 DSUs were outstanding. A number of 18,243 DSUs were granted to the eligible directors in August 2012. An additional number of 27,431 DSUs were granted in order to compensate holders of DSUs for the loss of value in light of the Special Distribution (as hereinafter defined).

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Governance

Human Resources Committee

The Human Resources Committee has the responsibility to establish a compensation policy for the executive officers which is consistent with the Corporation's business plan, strategies and objectives. This Committee has, namely, the responsibility to analyze for the Board all questions relating to human resources planning, compensation for executive officers, directors and other employees, short and long-term incentive programs, employee benefits programs, and recommends the appointment of executive officers.

During the fiscal year ended March 31, 2013, the Human Resources Committee was made up of the following four independent directors: Réal Raymond, whom is the Chair, Claude Boivin (will not stand for re-election at the Annual Meeting), John M. Cybulski and Paule Doré. All members of the Human Resources Committee are considered to be independent members under the applicable securities legislation. They all possess experience in the area of executive compensation, either as the past CEOs of publicly traded companies or as executives. Specifically, Mr. Boivin is a member of the Corporate Governance and Human Resources Committee of GLV Inc., Mr. Cybulski is Principal of Aeroglobe LLC, Ms. Doré is a member of the Human Resources Committee of Cogeco Inc. and Mr. Raymond is Chair of the Human Resources Committee of Metro Inc.

The Board believes that the members of the Human Resources Committee possess the combined knowledge, experience and backgrounds necessary to fulfill the Committee's mandate.

External Independent Consultant

For the fiscal year ended March 31, 2013, the Human Resources Committee in consultation with management has retained PCI - Perrault Consulting Inc. ("PCI") to prepare a comparative market data. The Corporation has appointed PCI initially on February 2009 to prepare annually comparative market data; a fee of \$6,000 has been paid by the Corporation to PCI for the preparation of the annual comparative market data. The Corporation has also engaged PCI for conducting market wage/salary surveys as related to engineering, administrative and production sectors in addition to job evaluation analysis. PCI is a Montreal based company founded in 2001 which has extensive expertise in the development of compensation plan design, short and long-term incentive plans and overall compensation management for executives.

Discussion and Analysis

Objectives of the Compensation Policy

The compensation policy has the following primary objectives:

- offer total compensation capable of attracting and retaining top level executive officers required to ensure the Corporation's short and long-term goals and success;
- motivate the executive officers in achieving and exceeding the goals of the Corporation and of its shareholders;

- provide executive officers with total compensation that stands at the first quartile of the market comparators when the Corporation achieves or exceeds its profitability and shareholder value creation goals.

The compensation policy is established in such a way to compensate the executive officers and other key employees considering market and Corporation's performance.

Compensation and Risk Management

The Human Resources Committee is of the opinion that the total compensation of the executive officers is balanced to avoid any potential risk that may result from taking actions to maximize compensation without regard for the risk assumed by the Corporation.

During fiscal 2013, the Human Resources Committee reviewed the Corporation's compensation policies and practices, taking into account risks associated therewith. The Committee has not identified any risks associated with the Corporation's compensation policies and practices that are reasonably likely to have a material adverse effect on the Corporation.

Nonetheless, the Board, upon recommendation of the Human Resources Committee, adopted and implemented a risk management policy which considers the implications of the risks associated with the Corporation's compensation policies and practices. The policy establishes that Management is responsible for ensuring that procedures are in place to identify and assess all risks associated with the Corporation's compensation policies and practices and to report to the Human Resources Committee on the steps taken to identify, monitor and mitigate risks associated with compensation policies and practices.

As part of the policy, Management will evaluate risk exposures related to compensation of the Board, executives, management and the broader employees population, with a focus on the short and long term Incentive plans. This includes identifying any such policies or practices that may encourage executive officers to take inappropriate or excessive risks, identifying risks arising from such policies and practices that could have a material adverse effect on the Corporation and considering the possible risk implications of the Corporation's compensation policies and practices and any proposed changes to them. The Human Resources Committee's responsibility in the risk oversight of the Corporation's compensation policies and practices is derived from its mandate as specified in the Human Resources Committee Charter.

The following procedures shall be followed by Management to identify and mitigate compensation policies and practices that could encourage an executive officer or an individual at a principal business unit or division to take inappropriate or excessive risks:

- annual assessment of the Corporation's compensation policies and practices including a review and analysis of the aspects of those policies that may lead to risky behaviour on the part of an executive officer or any other individual;
- dialogue and communication with experts outside the Corporation (as necessary) regarding an analysis of the risks associated with the Corporation's compensation policies and practices and a review of the risk identification and mitigation practices used by other public companies; and
- scheduling of *in camera* sessions of the Human Resources Committee allowing the members of this committee to discuss and analyse the risks associated with the Corporation's compensation policies and practices free from the unstated influence and pressure that may be created by the presence of Corporate Management.

Restrictions on trading and hedging of Corporation shares

The Corporation has adopted a policy refraining its directors and officers to purchase financial instruments, including, for greater certainty, prepaid variable forward contracts, equity swaps, collars or units of exchange funds, that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held directly or indirectly by the director, officer or employee.

Market Comparator and Positioning

The Corporation's positioning in the market with respect to compensation for executive officers is assessed based on a comparator group that serves as a reference group, as established by PCI. PCI's analysis included 6 companies selected considering criteria such as annual average revenues between \$210 million and \$1,250 million, comparable

client base, publicly-traded, autonomous, market for potential recruitment and entrepreneurial (the “**Comparator Group**”). These companies are:

Companies	Selection criteria		Revenues (000's)
	High Technology	Aerospace	
Com Dev International Ltd.	X		\$211,185
Magellan Aerospace Corporation	X	X	\$709,208
Transdigm Group Inc.	X	X	\$1,244,737
LMI Aerospace Inc.	X	X	\$252,008
Ducommun Technologies	X	X	\$578,786
Aerovironment	X	X	\$289,010

Components of the Compensation Policy

The compensation policy consists of the sum of

- base salary;
- annual incentive (bonus) compensation;
- long term incentive compensation;
- benefits and perquisites; and
- pension.

Each of these elements, together with the Corporation philosophy with respect to same, is hereinafter detailed.

Base Salary

The Corporation's base salary policy is to pay base salaries for executive officers that are between the 45th percentile and 70th percentile of the Comparator Group. All executive officers salaries are evaluated and classified with a salary grade. For each salary grade, a salary scale set between a minimum of 80% and a maximum of 120%. Salaries paid aim at the mid-point of this salary scale but reflect the individual's performance, tenure in the job, etc. The salaries of the executive officers are reviewed and adjusted yearly by the Human Resources Committee considering the individual performance and the Comparator Group.

Annual Incentive Compensation

The Corporation offers executive officers the possibility to earn an annual bonus provided the Corporation achieves or exceeds its financial objectives and provided the executive officer or employee achieves specific personal objectives. The annual bonus for the product line or business unit executives and employees rests on financial objectives set against the budget in fiscal year, relatively in the achievement of the Return on Net Utilized Assets (RONA) and operating income; the annual bonus for the Named Executives rests in the achievement of the budgeted net income and earnings per share. The combination of base salary and annual bonus are between the 70th percentile and 98th percentile of the Comparator Group.

Target bonus is calculated based on the degree of achievement of the financial performance presented in the annual budget of the Corporation. In order to be eligible to receive bonuses based on financial performance the product line or business unit shall have met at least 80% of its financial target budget. If such goal is achieved, the percentage of target bonus could go from 40% to 120% for eligible managers, 130% for senior managers and 130% to 170% for Named Executives depending on the level of achievement.

The final eligible target bonus to be paid to each executive officers and key employees will also take into account the performance of the Corporation as a whole based on consolidated net income. Therefore, the total annual incentive compensation paid based on the Corporation's performances is composed of the following:

- 75% of the target bonus is based on the product line and/or business units performances; and
- 25% of the target bonus is based on the Corporation's performance as a whole.

Finally, the executive officers and key employees' bonus will be calculated based on the individual performance; from 80% for "below expectations" to 120% for "outstanding contribution". The Human Resources Committee may, from time to time, exercise its discretion to allow that the annual incentive compensation otherwise payable in accordance with the Corporation's policies be varied on the overall performance of the Corporation and exceptional market conditions. The Human Resources Committee also reserves the right to recommend to the Board to waive minimum requirements for the annual incentive compensation when exceptional strategic achievements that could increase the long-term value of the Corporation are realized during the year.

The Corporation's achievement of financial objectives and performance as a whole and per product line for the fiscal year ended March 31, 2013 ranged from 24.7% to 98.6%.

For the fiscal year ended March 31, 2012, the following Annual Incentive Compensation was paid in fiscal year 2013 to each Named Executives:

Named Executives	Annual Incentive Compensation	% of Base Salary
Gilles Labbé	\$650,000	154%
Réal Bélanger	\$348,543	122%
Martin Brassard	\$285,000	104%
Stéphane Arsenault	\$90,000	57%
Gaétan Roy	\$80,000	45%

For the fiscal year ended March 31, 2013, the following Annual Incentive Compensation, will be paid in fiscal year 2014 to each Named Executives:

Named Executives	Annual Incentive Compensation	% of Base Salary
Gilles Labbé	\$357,000	83%
Réal Bélanger	\$206,000	71%
Martin Brassard	\$165,000	58%
Stéphane Arsenault	\$76,000	45%
Gaétan Roy	\$60,000	33%

Long-term Incentive Compensation

The establishment of a balance between short and long-term compensation is essential for the Corporation's performance. For this reason, the Corporation has adopted a Stock Option Plan in 1986 (the "**Stock Option Plan**") allowing the grant of options to officers and certain key employees of the Corporation and its business units. Reference is made to the description of such plan under the heading "Security-Based Compensation Arrangements" hereafter.

In general, the Board determines the number of options granted annually by multiplying the base salary of the Named Executives by a multiple varying between 30% and 50%, established according to the level of responsibility and authority of such Named Executives. The total amount of stock options issued over the past years is looked at but has not a material impact on the number of options to be granted to the employee. The options are granted at market value at time of grant and may be exercised for a period of up to seven years. These options are performance based and vest, not only over time but also when a targeted accretion of the Corporation's share on the TSX is met. More specifically, options granted vest upon each anniversary at a rate set forth in the stock option agreement provided that the average closing price of the Common Shares on the TSX, for 30 consecutive trading days, exceeds or equals the conditional share price set forth in the agreement at the time of the grant of the options. Rights are given to exercise the vested options within a 90 day or 180 day period following termination of employment, death or retirement.

On September 2, 2004, the Board of the Corporation has also approved an employee stock purchase plan to induce key employees to hold, on a permanent basis, Common Shares of the Corporation. Reference is made to the description of such plan under the heading "Security-Based Compensation Arrangements" hereafter.

Benefits and Perquisites

The Corporation's executive officers benefit program includes life, medical, dental and disability insurance. Perquisites may consist of car allowance and reimbursement for club memberships, medical and financial services.

Such benefits and perquisites are designed to be competitive with the Comparator Group and other comparable Canadian enterprises.

The compensation policy seeks to primary reward the superior performance through both individual and corporate results and the increased shareholder value. In reviewing executive officers compensation, the Human Resources Committee will take into consideration numerous factors that are not easily measurable but which consider the individual performance, experience, integrity and peer appreciation.

The following graph compares the total cumulative shareholder return for \$100 invested in the Corporation's Common Shares on March 31, 2008 with the cumulative total return of the Toronto Stock Exchange's S&P/TSX Composite Index (formerly TSE-300 Index) for the five most recently completed fiscal years.

(1) After payment of the special distribution of \$5.00 as hereinafter described.

The trend shown by the above graph is a positive total cumulative return for a shareholder over the past five years. During the same five year period, total compensation received by the Named Executives (as hereinafter defined) is generally in line with the trend. The fiscal 2013 was marked by the sale of substantially all of the Corporation's aerostructure and industrial products operations on August 31, 2012 to Precision Castparts Corp. for proceeds of \$234.3 million, net of taxes and related costs (the "**Sale Transaction**"). Subsequent to the Sale Transaction, the Corporation paid a special cash distribution to shareholders (the "**Special Distribution**") of \$5.00 per common share (\$157.5 million) in December 2012, consisting of a partial reduction and repayment of the Corporation's issued capital of \$2.70 per share, and of a dividend of \$2.30 per share. The Board determined that the Special Distribution was an appropriate use of the Corporation's financial resources following the completion of the Sale Transaction, as it provided shareholders with an adequate return on their investment, while allowing the Corporation to maintain a solid financial position.

EXECUTIVE COMPENSATION

The following table sets forth, to the extent required by applicable securities legislation, all annual and long-term compensation for services in all capacities to the Corporation for the three most recent completed fiscal years in respect of the Chief Executive Officer, Chief Financial Officer and the Corporation's three most highly compensated executive officers (the "Named Executives").

Security-Based Compensation Arrangements

Stock options granted or securities issued by the Corporation pursuant to the Corporation's security-based compensation arrangements are governed by one of the following plans: the Stock Purchase and Ownership Incentive Plan (the "**Purchase Plan**") and the Stock Option Plan.

The Purchase Plan

On September 2, 2004, the Board approved the Purchase Plan to induce key employees to hold, on a permanent basis, Common Shares of the Corporation. The Purchase Plan was amended in 2006 and 2011.

The Stock Option Plan

Under the Stock Option Plan, as amended, the Board may designate officers and full-time key employees of the Corporation or its subsidiaries as eligible employees under the Stock Option Plan, and may grant to such eligible employees options to purchase Common Shares of the Corporation. The purpose of the Stock Option Plan is to provide an additional incentive for the Corporation's officers and key employees to promote the interests of the Corporation to the best of their ability.

Who is eligible to participate?

The Purchase Plan

Eligibility for the Purchase Plan extends to all management Employees designated by the Corporation or by the Human Resources Committee, who have no less than 6 months of continuous service, except when that condition is otherwise waived by the Human Resources Committee. The Board or the Human Resources Committee may from time to time designate any other employee of the Corporation or one of its subsidiaries as eligible for the Purchase Plan.

The Stock Option Plan

Pursuant to the Stock Option Plan, options may be granted in favour of officers (other than independent directors) and key employees of the Corporation and of its subsidiaries.

What is the term and vesting schedule of stock options or of the securities issuable under the security-based compensation arrangements?

The Purchase Plan

Membership in the Purchase Plan is optional and is valid for one Purchase Plan year at a time, namely for the period beginning January 1 and ending December 31 of each calendar year. An eligible management Employee shall become a participating employee only if he joins the Purchase Plan by completing the enrolment form and if he subscribes with respect to said Purchase Plan year, for a number of shares whose aggregate subscription price shall equal between 2% and 10% of the employee's annual salary as at the date of his enrolment, without exceeding 10% of said annual salary. Every July 1, in each three calendar years following calendar year in which occurred the subscription or attribution of Common Shares, one third of the Common Shares so subscribed or attributed will vest to the participant.

The Stock Option Plan

The options are awarded by means of a stock option agreement entered into in this regard with each beneficiary. Options generally may be exercised after the first anniversary of the date of grant until the seventh anniversary of the date of grant, subject to a vesting schedule upon each anniversary at a rate set forth in the agreement, provided that the average closing price of the Common Shares on the TSX, for 30 consecutive trading days, exceeds or equals the conditional share price set forth in the agreement, as determined by the Board on the recommendation of the Human Resources Committee at the time of the grant of the options.

If an offer to purchase all of the outstanding Common Shares of the Corporation is made, all options that are not vested shall, from the date of the offer, be fully vested notwithstanding any provision to the contrary in any stock option agreement, provided, however, the conditional share price has been met at the time the offer is made.

How many securities are authorized to be issued under the security-based compensation arrangements and what percentage of the Corporation's shares outstanding do they represent?

The Purchase Plan

Following the replenishment of the number of shares which may be issued under the Purchase Plan, which was approved by the Shareholders at the annual and special meeting held on August 4, 2011, the maximum number of Common Shares made available for the Purchase Plan shall not exceed 340,000 (representing approximately 1.08% of the issued and outstanding Common Shares as at June 14, 2013).

The Stock Option Plan

Following the replenishment of the number of shares which may be issued under the Stock Option Plan, which was approved by the shareholders at the annual and special meeting held on August 4, 2011, the total number of said issuable shares shall not exceed in the aggregate 2,808,257 Common Shares (representing approximately 8.91% of the Common Shares outstanding as at June 14, 2013) and the total number of shares in respect of which options may be granted to any one person under the Stock Option Plan may not exceed five percent (5%) of the total number of Common Shares outstanding at each stock option award date.

The following table shows, as of March 31, 2013, aggregated information for the Corporation's Purchase Plan and Stock Option Plan which are the only compensation plans under which equity securities of the Corporation are authorized for issuance from treasury.

Equity Compensation Plan Information

Plan Category	Number of Common Shares to be Issued Upon Exercise of Outstanding Options and rights	Weighted Average Exercise Price of Outstanding Options and rights	Number of Common Shares Remaining Available for Future Issuance Under the Equity Compensation Plans
Equity Compensation Plans of the Corporation approved by the shareholders	259,101	3.30	1,765,501
Equity Compensation Plans of the Corporation not approved by the shareholders	Nil	Nil	Nil
Total:	259,101	-	1,765,501

During the fiscal year 2013, no options were granted under the Stock Option Plan and 14,171 Common Shares were attributed to the participating employees under the Purchase Plan.

As at June 14, 2013, 259,101 Common Shares were issuable upon the exercise of outstanding options representing 0.82% of the issued and outstanding Common Shares. Such options were exercisable at exercise prices ranging from \$0.01 to \$5.27 per share and were due to expire up to August 20, 2018.

What is the maximum percentage of securities available under the security-based compensation arrangements to Corporation's insiders?

In order for the Stock Option Plan together with the Purchase Plan to comply with stock exchange rules, both plans provide that :

- (a) the number of shares issuable to insiders, from time to time, under all security based compensation arrangements may not exceed 10% of the total number of issued and outstanding Common Shares; and
- (b) the number of shares issued to insiders under all security based compensation arrangements during any one-year period may not exceed 10% of the total number of issued and outstanding Common Shares.

What is the maximum number of securities any one person is entitled to receive under the security-based compensation arrangements and what percentage of the Corporation's outstanding capital does this represent?

The Purchase Plan

An eligible management Employee shall become a participating employee only if he subscribes with respect to said Purchase Plan year, for a number of shares whose aggregate subscription price shall equal between 2% and 10% of the employee's annual salary as at the date of his enrolment, without exceeding 10% of said annual salary.

The maximum number of shares issuable to a single person under the Purchase Plan and any other stock option plan of the Corporation shall not represent more than 5% of the outstanding common shares in any one-year period.

The Stock Option Plan

- (a) the number of Common Shares issued to one Insider pursuant to the Stock Option Plan, within a one-year period, shall not exceed 5% of the total number of Common Shares outstanding at each date of such issue of Common Shares;
- (b) the aggregate number of Common Shares issued or which could be issued under the Stock Option Plan to any one beneficiary shall not exceed 20% of the aggregate number of Common Shares issuable under the Stock Option Plan, as amended from time to time;
- (c) annually, the number of Common Shares that may be issued pursuant to options granted to the CEO of the Corporation shall not exceed one third of the Common Shares that may be issued pursuant to all the options granted during the year under the Stock Option Plan; and
- (d) the options granted to insiders pursuant to the Stock Option Plan shall not be repriced at a reduced exercise price.

How is the exercise price determined under the security-based compensation arrangements?

The Purchase Plan

The subscription price of the issued Common Shares represents 90 % of the weighted average closing price of the Corporation's Common Share on the TSX over the five trading days preceding the Common Share subscription. Also, the Corporation matches 50 % of the employee's contribution by attributing to the employee, on a monthly basis, additional Common Shares acquired on the TSX at market price. However, the Corporation's matching attribution cannot exceed 4 % of the employee's annual base salary. Common Shares attributed to the employee, as well as the subscribed Common Shares, will be earned and released over a three-year period beginning on July 1 of each year following the year in which the employee contributed to the Purchase Plan.

The Stock Option Plan

The exercise price per share of an option will not be less than the average closing price of a regular board lot of Common Shares of the Corporation traded on the TSX for the five trading days preceding the granting of the option.

Under what circumstances is an individual no longer entitled to participate?

The Purchase Plan

When a participating employee voluntarily terminates his employment with the Corporation or when his employment is terminated due to his dismissal (with or without cause), the said participating employee thereby loses his right to all the shares attributed not yet vested. Moreover, all the Common Shares subscribed by the participating employee, regardless of whether or not they are unrestricted at the date of termination of his employment, shall become unrestricted automatically. The participating employee may then ask the trustee to provide him with a certificate issued for all the Common Shares subscribed plus all the Common Shares attributed that are vested in the participating employee; he may also ask the trustee to sell all or part of the aforesaid Common Shares at the market price. In all cases, all Common Shares attributed that are not yet vested shall be sold by the trustee on the market with payment of the proceeds of disposition to the Corporation.

In the event that a participating employee retires (*de facto*, but after age 55), dies or becomes totally and permanently disabled (qualifying for the Corporation's long-term disability plan), he or his beneficiary, as the case may be, may ask the trustee to provide him with a certificate issued for all the Common Shares subscribed, regardless of whether or not they are unrestricted, plus all the Common Shares attributed to him, regardless of whether or not they previously became vested. In the event of a change of control of the Corporation, as such expression is defined in the Purchase Plan, the participating employees shall have the same rights.

The Stock Option Plan

In the event that a beneficiary's employment with the Corporation or any subsidiary is terminated for any reason other than death or retirement (a "termination of employment"), any or all of the vested options held by such beneficiary which have not been previously exercised may be exercised, at any time during a maximum period of 90 days following the date of termination of employment, or such other extended period as may be determined at the discretion of the Board, other than a voluntary termination of employment (but in no event after the expiry date), provided, however, that, notwithstanding any other term or condition of the Stock Option Plan, in the event the employment of a beneficiary is terminated for cause, the vested options held by such beneficiary which have not been previously exercised will only be exercisable on the next business day following the date of personal delivery of a written notice to the beneficiary confirming (i) such termination for cause and (ii) the requirement to exercise such vested options.

In the event of the death of a beneficiary, his vested options may be exercised by the beneficiary's legal personal representative(s) at any time after the date of the beneficiary's death up to and including (but not after) a date which is 180 days following the date of the beneficiary's death (but in no event after the expiry date), as to any or all of such beneficiary's vested options which had not previously been exercised.

Upon the retirement of a beneficiary, any or all of the vested options held by such beneficiary which have not been previously exercised may be exercised at any time during a maximum period of 180 days following the date of his retirement (but in no event after the expiry date).

Can stock options or rights held pursuant to the security-based compensation arrangements be assigned or transferred?

All benefits, rights and options accruing to any participant in accordance with the terms and conditions of the Purchase Plan and of the Stock Option Plan shall not be transferable unless under the laws of descent and distribution or pursuant to a will.

How are the security-based compensation arrangements amended? Is shareholder approval required?

The Purchase Plan

The Board has full and complete responsibility for the Purchase Plan, which includes, without restriction, the power to adopt, amend, suspend or terminate the Purchase Plan, as it deems necessary or desirable, provided that such acts do not retroactively affect the rights of the participating employees under the Purchase Plan and that the approval of the regulators and the self-regulatory organizations, if necessary, is obtained. The Purchase Plan does not require that an amendment thereto be approved by the shareholders of the Corporation. However, notwithstanding the foregoing, the TSX may require security holder approval for some types of amendments that are considered as fundamental changes to the Purchase Plan.

The Stock Option Plan

The Board may, without the approval of the shareholders of the Corporation but subject to receipt of requisite approval from the TSX, in its sole discretion make the following amendments to the Stock Option Plan:

- (a) a change to the vesting provisions of an option or of the Stock Option Plan;
- (b) an addition to, deletion from or alteration of the Stock Option Plan or an option that is necessary to comply with applicable law or the requirements of any regulatory authority or stock exchange;
- (c) an amendment to correct or rectify any ambiguity, defective provision, error or omission in the Stock Option Plan or an option; and

- (d) any other amendment that does not require shareholder approval under the Stock Option Plan.

The approval of the Board and the requisite approval from the TSX and the shareholders shall be required for any of the following amendments to be made to the Stock Option Plan:

- (a) any increase in the number of Common Shares reserved for issuance under the Stock Option Plan, including a change from a fixed number of Common Shares to a fixed maximum percentage;
- (b) any reduction in the purchase price or cancellation and reissue of options or any extension of the expiry of an option;
- (c) any change to the eligible participants which would have the potential of broadening or increasing insider participation;
- (d) the addition of any form of financial assistance; and
- (e) the addition of a deferred or restricted share unit or other provision which results in a beneficiary being issued Common Shares while no cash consideration is received by the Corporation.

Were any amendments made to the security-based compensation arrangements in the last fiscal year?

The Stock Option Plan

In November 2012, the Board adopted a resolution to amend the Stock Option Plan in order to allow the Human Resources Committee to adjust the exercise price of outstanding options when the Corporation makes a special distribution in order to compensate holders of options for the loss of value. The amendments were commanded in light of the Special Distribution described above. The TSX has accepted notice of the amendments.

Does the Corporation provide any financial assistance to participants to purchase shares under the security-based compensation arrangements?

Except for the Corporation's matching attribution, no financial assistance is provided by the Corporation to the participating employee for the subscription or purchase of Common Shares under the Purchase Plan.

There is no provision allowing financial assistance under the Stock Option Plan.

Are there any adjustment provisions under the security-based compensation arrangements?

The Purchase Plan

In the event of a change of control of the Corporation, as such expression is defined in the Purchase Plan, the participating employee may ask the trustee to provide him with a certificate issued for all the Common Shares subscribed, regardless of whether or not they are unrestricted, plus all the Common Shares attributed to him, regardless of whether or not they previously became vested.

The Stock Option Plan

In the event that the Corporation proposes to amalgamate, merge or consolidate with any other company (other than a wholly-owned subsidiary), or in the event of a change of control, as such term is defined in the Stock Option Plan, the Corporation shall, upon notice thereof to each beneficiary holding options under the Stock Option Plan, permit the exercise of all such options, within the 6-month period following the date of such notice, for all options (whether or not such options had previously vested), provided however, the conditional share price has been met at the time of the change of control and, upon the expiration of such 6-month period, all rights of the beneficiaries to such options or to exercise same (to the extent not theretofore exercised) shall *ipso facto* terminate and cease to have further force or effect whatsoever.

Are there any blackout period provisions under the security-based compensation arrangements?

Under the Stock Option Plan, in the event that the term of an option expires during such period of time during which insiders are prohibited from trading in shares as provided by the Corporation's insider trading policy, as it may be implemented and amended from time to time (the "**Blackout Period**") or within 10 business days thereafter, the option shall expire on the date that is 10 business days following the Blackout Period. Although the Blackout Period would only cover insiders of the Corporation, the extension would apply to all participants who have options which expire during the Blackout Period.

PENSION PLANS

Defined Benefit Pension Plans

The pension payable to eligible executive officers is based on the years of credited service and a percentage of the average of the best three consecutive basic earnings (Average Earnings) at the date of retirement; for Réal Bélanger, this percentage is equal to 2.965% and his pension is limited to 60% of his Average Earnings while the percentage for Gilles Labbé is 2% and his pension is not limited. The pension is payable at normal retirement date (first of the month coincident with or immediately following the executive's 65th birthday) or as early as the first of the month following age 55. Upon early retirement, the pension is reduced by ¼ % for each month by which the early retirement date precedes the earliest of the following dates: executive's 60th birthday, executive's age plus continuous service equals 80, executive's continuous service equals 30 years.

The pension is payable from two sources: a registered Individual Pension Plan (IPP) and an unregistered Executive Retirement Plan (ERP). The IPP pays the pension up to the Income Tax limits and the excess is paid from the ERP. The IPP pension is funded through Corporation's and employee's contributions while the ERP pension is funded through Corporation's contributions to the Retirement Compensation Arrangements (RCA).

In the event of a change in control of the Corporation, the ERP benefits shall be fully funded upon the closing of such change of control and no reduction would be applied on the pension upon early retirement.

The following table shows the retirement benefits for each eligible Named Executives under the defined benefit pension plans:

Defined Contribution Pension Plan

Under the defined contribution pension plan offered to executive officers working in Canada, the Corporation contributes an amount equal to the executive officers' contributions (5% of basic earnings), subject to the Income Tax limits, to a savings account opened on their behalf. The executive officers' accounts accumulate with interest according to their investment instructions. At retirement, the executive officers receive their account balance.
