Share Ownership Requirements

In order to meet best corporate governance practices, on February 8, 2007, upon recommendation of the Committee, the Board approved the introduction of a minimum share ownership requirement for members of the Board. This minimum requirement was set at an amount equal to five times the amount of the annual retainer fees payable to members of the Board. Directors have a period of three years to comply with this requirement.

(2) All awards have been made under the Stock Appreciation Rights Plan as hereinafter described.

(3) On March 31, 2010, the closing price of the Company's Common Shares was \$5.21 (HRX-T).

Stock Appreciation Rights Plan (the "SAR Plan")

The SAR Plan for non-employee directors adopted by the Board of Directors in September 2001 is intended to enhance the Company's ability to attract and retain high quality individuals to serve as members of the Board and participate in the Company's long-term success and to promote a greater alignment of interests between the Company's non-employee directors and its shareholders.

The SAR Plan is administered by the Human Resources and Corporate Governance Committee (the "Committee"). The SAR Plan enables the participants to receive, on the exercise date of a SAR, a cash amount equal to the excess of the market price of a common share on the exercise date of the SAR over the exercise price of the SAR. The

exercise price of each SAR granted is determined on the basis of the average closing price of the common shares of the Company traded on the Toronto Stock Exchange (the "TSX"), for the five trading days preceding the date of the award of the SAR. The SARs generally may be exercised after the first anniversary of the date of grant until the sixth anniversary of the date of grant, subject to a vesting schedule. SARs are vested or earned over a four-year period. On May 30, 2008, the Board approved upon the recommendation of the Committee, an increase in the annual grant of SARs to non-employee directors from 4,000 per year to 5,000 per year.

On October 31st, 2007 the members of the Committee have reviewed the terms of the SAR Plan for non-employee directors. The purposes of the proposed modifications to the SAR Plan were to introduce provisions dealing with the exercise of SARs (whether vested SARs or non-vested SARs) following termination of service as member of the Board (upon resignation, removal or otherwise), death or disability of the participant, or following delisting of the shares of the Company or a "change of control". The members of the Committee approved the proposed modifications to the SAR Plan and the Committee recommended the approval of these modifications to the members of the Board, who approved same on the same date. These modifications are effective retroactively and are applicable to the outstanding SARs.

On August 21, 2008, the members of the Committee have reviewed the terms of the SAR Plan for non-employee directors in order for honorary directors who are neither employees nor officers of the Company or of any subsidiary to benefit for same. The members of the Committee approved the proposed modifications to the SAR Plan and the Committee recommended the approval of these modifications to the members of the Board, who approved same on the same date. These modifications are effective retroactively and are applicable to the outstanding SARs.

At March 31, 2010, on a cumulative basis, 150,500 SARs were still outstanding at a weighted-average granted value of \$6.14 (123,000 SARs at a weighted-average granted value of \$6.59 at March 31, 2009), which expire at various dates between fiscal years 2011 and 2016.

Security-Based Compensation Arrangements

Stock options granted or securities issued by the Company pursuant to the Company's security-based compensation arrangements are governed by one of the following plans: the Stock Purchase and Ownership Incentive Plan (the "Purchase Plan") and the Stock Option Plan.

The Purchase Plan

On September 2, 2004, the Board of Directors of the Company approved the Purchase Plan to induce key employees to hold, on a permanent basis, Common Shares of the Company. The Purchase Plan was amended in 2006.

The Stock Option Plan

Under the Company's Stock Option Plan (the "Plan") established in 1986, as amended in 1988, 1990, 1996, 1998, 1999, 2000, 2002, 2003, 2006 and 2007, the Board of Directors may designate officers and full-time key employees of the Company or its business units or subsidiaries as eligible employees under the Plan, and may grant to such eligible employees options to purchase Common Shares of the Company. The purpose of the Plan is to provide an additional incentive for the Company's officers and key employees to promote the interests of the Company to the best of their ability.

Who is eligible to participate?

The Purchase Plan

Eligibility for the Purchase Plan extends to all management Employees (*i.e.* all the regular employees who hold a permanent management position within the Company that is classified in salary grades I to VIII according to the job classification established by the Company or of equivalent level in a subsidiary of the Company) designated by the

Company or by the Committee, who have no less than 6 months of continuous service, except when that condition is otherwise waived by the Committee. The Board of Directors or the Committee may from time to time designate any other employee of the Company or one of its subsidiaries as eligible for the Purchase Plan.

The Stock Option Plan

Pursuant to the Plan, options may be granted in favour of officers (other than independent directors) and key employees of the Company and of its subsidiaries.

What is the term and vesting schedule of stock options or of the securities issuable under the security-based compensation arrangements?

The Purchase Plan

Membership in the Purchase Plan is optional and is valid for one Purchase Plan year at a time, namely for the period beginning January 1 and ending December 31 of each calendar year. An eligible management Employee shall become a participating employee only if he joins the Purchase Plan by completing the enrolment form and if he subscribes with respect to said Purchase Plan year, for a number of shares whose aggregate subscription price shall equal between 2% and 10% of the employee's annual salary as at the date of his enrolment, without exceeding 10% of said annual salary. Every July 1, in each three calendar years following calendar year in which occurred the subscription or attribution of Common Shares, one third of the Common Shares so subscribed or attributed will vest to the participant.

The Stock Option Plan

The options are awarded by means of a stock option agreement entered into in this regard with each beneficiary. Options generally may be exercised after the first anniversary of the date of grant until the seventh anniversary of the date of grant, subject to a vesting schedule upon each anniversary at a rate set forth in the agreement, provided that the average closing price of the Common Shares on the Toronto Stock Exchange, for 20 consecutive trading days, exceeds or equals the conditional share price set forth in the agreement, as determined by the Board of Directors on the recommendation of the Human Resources and Corporate Governance Committee at the time of the grant of the options.

How many securities are authorized to be issued under the security-based compensation arrangements and what percentage of the Company's shares outstanding do they represent?

The Purchase Plan

The maximum number of Common Shares made available for the Purchase Plan shall not exceed 340,000 (representing approximately 1.1% of the issued and outstanding Common Shares as at June 29, 2010). These 340,000 shares have been taken out from the common shares already reserved for the Company's stock option plan.

The Stock Option Plan

Following an increase in the number of shares which may be issued under the Plan, which was approved by the shareholders at the annual meeting held on August 3, 2006, the total number of said issuable shares shall not exceed in the aggregate 2,808,257 Common Shares (representing approximately 9.2% of the Common Shares outstanding as at June 29, 2010) and the total number of shares in respect of which options may be granted to any one person under the Plan may not exceed five percent (5%) of the total number of Common Shares outstanding at each stock option award date.

The following table shows, as of March 31, 2010, aggregated information for the Company's Purchase Plan and Stock Option Plan which are the only compensation plans under which equity securities of the Company are authorized for issuance from treasury.

Equity Compensation Plan Information⁽¹⁾

Plan Category	Number of Common Shares to be Issued Upon Exercise of Outstanding Options and rights	Weighted Average Exercise Price of Outstanding Options and rights	Number of Common Shares Remaining Available for Future Issuance Under the Equity Compensation Plans
Equity Compensation Plans of the Company approved by the shareholders	1,555,221	\$5.83	405,496
Equity Compensation Plans of the Company not approved by the shareholders	Nil	Nil	Nil
Total:	1,555,221	N/A	405,496

(1) As of March 31, 2010

During the fiscal year 2010, 75,399 Common Shares were issued and 32,767 Common Shares were attributed to the participating employees under the Purchase Plan.

As at June 29, 2010, 1,520,221 Common Shares were issuable upon the exercise of outstanding options representing 5.1% of the issued and outstanding Common Shares. Such options were exercisable at exercise prices ranging from \$3.84 to \$9.90 per share and were due to expire up to August 21, 2016.

What is the maximum percentage of securities available under the security-based compensation arrangements to Company's insiders?

In order for the Stock Option Plan together with the Purchase Plan to comply with stock exchange rules, both plans provide that :

- (a) the number of shares issuable to insiders, from time to time, under all security based compensation arrangements may not exceed 10% of the total number of issued and outstanding Common Shares; and
- (b) the number of shares issued to insiders under all security based compensation arrangements during any one-year period may not exceed 10% of the total number of issued and outstanding Common Shares.

What is the maximum number of securities any one person is entitled to receive under the security-based compensation arrangements and what percentage of the Company's outstanding capital does this represent?

The Purchase Plan

An eligible management Employee shall become a participating employee only if he subscribes with respect to said Purchase Plan year, for a number of shares whose aggregate subscription price shall equal between 2% and 10% of the employee's annual salary as at the date of his enrolment, without exceeding 10% of said annual salary.

The Stock Option Plan

- (a) the number of Common Shares issued to one Insider pursuant to the Plan, within a one-year period, shall not exceed 5% of the total number of Common Shares outstanding at each date of such issue of Common Shares;
- (b) the aggregate number of Common Shares issued or which could be issued under the Plan to any one beneficiary shall not exceed 20% of the aggregate number of Common Shares issuable under the Plan, as amended from time to time;
- (c) annually, the number of Common Shares that may be issued pursuant to options granted to the President and Chief Executive Officer of the Company shall not exceed one third of the Common Shares that may be issued pursuant to all the options granted during the year under the Plan; and
- (d) the options granted to insiders pursuant to the Plan shall not be repriced at a reduced exercise price.

How is the exercise price determined under the security-based compensation arrangements?

The Purchase Plan

The subscription price of the issued Common Shares represents 90 % of the average closing price of the Company's Common Share on the TSX over the five trading days preceding the Common Share subscription. Also, the Company matches 50 % of the employee's contribution by attributing to the employee, on a monthly basis, additional Common Shares acquired on the TSX at market price. However, the Company's matching attribution cannot exceed 4 % of the employee's annual base salary. Common Shares attributed to the employee, as well as the subscribed Common Shares, will be earned and released over a three-year period beginning on July 1 of each year following the year in which the employee contributed to the Purchase Plan.

The Stock Option Plan

The exercise price per share of an option will not be less than the average closing price of a regular board lot of Common Shares of the Company traded on the TSX for the five trading days preceding the granting of the option.

Under what circumstances is an individual no longer entitled to participate?

The Purchase Plan

When a participating employee voluntarily terminates his employment with the Company or when his employment is terminated due to his dismissal (with or without cause), the said participating employee thereby loses his right to all the shares attributed not yet vested. Moreover, all the Common Shares subscribed by the participating employee, regardless of whether or not they are unrestricted at the date of termination of his employment, shall become unrestricted automatically. The participating employee may then ask the trustee to provide him with a certificate issued for all the Common Shares subscribed plus all the Common Shares attributed that are vested in the participating employee; he may also ask the trustee to sell all or part of the aforesaid Common Shares at the market price. In all cases, all Common Shares attributed that are not yet vested shall be sold by the trustee on the market with payment of the proceeds of disposition to the Company.

In the event that a participating employee retires (*de facto*, but after age 55), dies or becomes totally and permanently disabled (qualifying for the Company's long-term disability plan), he or his beneficiary, as the case may be, may ask the trustee to provide him with a certificate issued for all the Common Shares subscribed, regardless of whether or not they are unrestricted, plus all the Common Shares attributed to him, regardless of whether or not they previously became vested. In the event of a change of control of the Company, as such expression is defined in the Purchase Plan, the participating employees shall have the same rights.

The Stock Option Plan

In the event that a beneficiary's employment with the Company or any subsidiary is terminated for any reason other than death or retirement (a "termination of employment"), any or all of the vested options held by such beneficiary which have not been previously exercised may be exercised, at any time during a maximum period of 90 days following the date of termination of employment, or such other extended period as may be determined at the discretion of the Board of Directors of the Company, other than a voluntary termination of employment (but in no event after the expiry date), provided, however, that, notwithstanding any other term or condition of the Plan, in the event the employment of a beneficiary is terminated for cause, the vested options held by such beneficiary which have not been previously exercised will only be exercisable on the next business day following the date of personal delivery of a written notice to the beneficiary confirming (i) such termination for cause and (ii) the requirement to exercise such vested options.

In the event of the death of a beneficiary, his vested options may be exercised by the beneficiary's legal personal representative(s) at any time after the date of the beneficiary's death up to and including (but not after) a date which is 180 days following the date of the beneficiary's death (but in no event after the expiry date), as to any or all of such beneficiary's vested options which had not previously been exercised.

Upon the retirement of a beneficiary, any or all of the vested options held by such beneficiary which have not been previously exercised may be exercised at any time during a maximum period of 180 days following the date of his retirement (but in no event after the expiry date).

Can stock options or rights held pursuant to the security-based compensation arrangements be assigned or transferred?

All benefits, rights and options accruing to any participant in accordance with the terms and conditions of the Purchase Plan and of the Stock Option Plan shall not be transferable unless under the laws of descent and distribution or pursuant to a will.

How are the security-based compensation arrangements amended? Is shareholder approval required?

The Purchase Plan

The Board of Directors has full and complete responsibility for the Purchase Plan, which includes, without restriction, the power to adopt, amend, suspend or terminate the Purchase Plan, as it deems necessary or desirable, provided that such acts do not retroactively affect the rights of the participating employees under the Purchase Plan and that the approval of the regulators and the self-regulatory organizations, if necessary, is obtained. The Purchase Plan does not require that an amendment thereto be approved by the shareholders of the Company. However, notwithstanding the foregoing, the TSX may require security holder approval for some types of amendments that are considered as fundamental changes to the Purchase Plan.

The Stock Option Plan

The Board of Directors may, without the approval of the shareholders of the Company but subject to receipt of requisite approval from the TSX, in its sole discretion make the following amendments to the Stock Option Plan:

- (a) a change to the vesting provisions of an option or of the Plan;
- (b) an addition to, deletion from or alteration of the Plan or an option that is necessary to comply with applicable law or the requirements of any regulatory authority or stock exchange;
- (c) an amendment to correct or rectify any ambiguity, defective provision, error or omission in the Plan or an option; and
- (d) any other amendment that does not require shareholder approval under the Plan.

The approval of the Board of Directors and the requisite approval from the TSX and the shareholders shall be required for any of the following amendments to be made to the Stock Option Plan:

- (a) any increase in the number of Common Shares reserved for issuance under the Plan, including a change from a fixed number of Common Shares to a fixed maximum percentage;
- (b) any reduction in the purchase price or cancellation and reissue of options or any extension of the expiry of an option;
- (c) any change to the eligible participants which would have the potential of broadening or increasing insider participation;
- (d) the addition of any form of financial assistance; and
- (e) the addition of a deferred or restricted share unit or other provision which results in a beneficiary being issued Common Shares while no cash consideration is received by the Company.

Were any amendments made to the security-based compensation arrangements in the last fiscal year?

No modifications were made to the Purchase Plan and Stock Option Plan during fiscal year 2010.

Does the Company provide any financial assistance to participants to purchase shares under the security-based compensation arrangements?

Except for the Company's matching attribution, no financial assistance is provided by the Company to the participating employee for the subscription or purchase of Common Shares under the Purchase Plan.

There is no provision allowing financial assistance under the Stock Option Plan.

Are there any adjustment provisions under the security-based compensation arrangements?

The Purchase Plan

In the event of a change of control of the Company, as such expression is defined in the Purchase Plan, the participating employee may ask the trustee to provide him with a certificate issued for all the Common Shares subscribed, regardless of whether or not they are unrestricted, plus all the Common Shares attributed to him, regardless of whether or not they previously became vested.

The Stock Option Plan

In the event that the Company proposes to amalgamate, merge or consolidate with any other company (other than a wholly-owned subsidiary), or in the event of a change of control, as such term is defined in the Plan, the Company shall, upon notice thereof to each beneficiary holding options under the Plan, permit the exercise of all such options, within the 6-month period following the date of such notice, for all options (whether or not such options had previously vested), provided however, the conditional share price has been met at the time of the change of control and, upon the expiration of such 6-month period, all rights of the beneficiaries to such options or to exercise same (to the extent not theretofore exercised) shall *ipso facto* terminate and cease to have further force or effect whatsoever.

If an offer to purchase all of the outstanding Common Shares of the Company is made, all options that are not vested shall, from the date of the offer, be fully vested notwithstanding any provision to the contrary in any stock option agreement, provided, however, the conditional share price has been met at the time the offer is made.

Are there any blackout period provisions under the security-based compensation arrangements?

Under the Stock Option Plan, in the event that the term of an option expires during such period of time during which insiders are prohibited from trading in shares as provided by the Company's insider trading policy, as it may be implemented and amended from time to time (the "Blackout Period") or within 10 business days thereafter, the option shall expire on the date that is 10 business days following the Blackout Period. Although the Blackout Period would only cover insiders of the Company, the extension would apply to all participants who have options which expire during the Blackout Period.

Pension Plan

Defined Benefit Pension Plans

The pension payable to eligible executive officers is based on the years of credited service and a percentage of the average of the best three consecutive basic earnings (Average Earnings) at the date of retirement; for Réal Bélanger, this percentage is equal to 2.965% and his pension is limited to 60% of his Average Earnings while the percentage for Gilles Labbé is 2% and his pension is not limited. The pension is payable at normal retirement date (first of the month coincident with or immediately following the executive's 65th birthday) or as early as the first of the month following age 55. Upon early retirement, the pension is reduced by ¼ % for each month by which the early retirement date precedes the earliest of the following dates: executive's 60th birthday, executive's age plus continuous service equals 80, executive's continuous service equals 30 years.

The pension is payable from two sources: a registered Individual Pension Plan (IPP) and an unregistered Executive Retirement Plan (ERP). The IPP pays the pension up to the Income Tax limits and the excess is paid from the ERP. The IPP pension is funded through Company's and employee's contributions while the ERP pension is not funded and therefore paid from Company's revenues.

In the event of a change in control of the Company, the ERP benefits shall be funded via a Retirement Compensation Arrangement and no reduction would be applied on the pension upon early retirement.

The following table shows the retirement benefits for each eligible Named Executives under the defined benefit pension plans:

Defined Contribution Pension Plan

Under the defined contribution pension plan offered to executive officers working in Canada, the Company contributes an amount equal to the executive officers' contributions (5% of basic earnings), subject to the Income Tax limits, to a savings account opened on their behalf. The executive officers' accounts accumulate with interest according to their investment instructions. At retirement, the executive officers receive their account balance.

Under the defined contribution pension plan offered to executive officers working in the US, the Company contributes an amount equal to the executive officers' contributions to a savings account opened on their behalf; this Company contribution is made on a discretionary basis. An additional amount may be contributed by the Company based on profitability. The executive officers' accounts accumulate with interest according to their investment instructions. At retirement, the executive officers receive their account balance.

The following table shows the accumulated values for each eligible Named Executive under the defined contribution pension plans:

Compensation Discussion and Analysis

The Human Resources and Corporate Governance Committee of the Company (the "Human Resources Committee") has the responsibility to establish a compensation policy for the executive officers which is consistent with the Company's business plan, strategies and objectives. This Committee has, namely, the responsibility to analyse for the Board of Directors all questions relating to human resources planning, compensation for executive officers, directors and other employees, short and long-term incentive programs, employee benefits programs, and recommends the appointment of executive officers. The compensation policy has the following primary objectives:

- offer total compensation capable of attracting and retaining top level executive officers required to ensure the Company's short and long-term goals and success;
- motivate the executive officers in achieving and exceeding the goals of the Company and of its shareholders;
- provide executive officers with total compensation that stands at the first quartile of the market comparators when the Company achieves or exceeds its profitability and shareholder value creation goals.

Market Comparator and Positioning

The compensation policy is established in such a way to compensate the executive officers and other key employees considering market and Company's performance. The Company has appointed Perrault Consulting initially on February 2009 to prepare annually comparative market data. Perrault Consulting is a Montreal based company founded in 2001 which has extensive expertise in the development of compensation plan design, short and long-term incentive plans and overall compensation management for executives. This analysis included 9 companies selected considering criteria such as annual revenues between \$200 million and \$1,500 million, comparable client base, publicly-traded, autonomous, market for potential recruitment and entrepreneurial (the "Comparator Group"), these companies are :

Companies	Selection criteria			Revenues (000's)
	High Technology	Aerospace	Important Shareholder Head Office in Quebec	
Com Dev International Ltd	X			240 410 \$
Northstar Aerospace Inc	X	X	X	203 295 \$
Vector Aerospace Corp	X	X	X	566 333 \$
Magellan Aerospace Corp	X	X		686 614 \$
Transdigm Group Inc	X	X		761 552 \$
LMI Aerospace Inc	X	X		241 196 \$
Ducommun Technologies	X	X		430 748 \$
Triumph Aerospace	X	X		1 240 378 \$
Aerovironement	X	X		247 662 \$

Components of the Compensation Policy

The compensation policy consists of the sum of

- base salary;
- annual incentive (bonus) compensation;
- long term incentive compensation;
- benefits and perquisites; and
- pension.

Each of these elements, together with the Company philosophy with respect to same, is hereinafter detailed.

Base Salary

The Company's base salary policy is to pay base salaries for executive officers that are between the 50th percentile (median) and 55th percentile of the Comparator Group. All executive officers salaries are evaluated and classified with a salary grade. For each salary grade, a salary scale set between a minimum of 80% and a maximum of 120% of the market's 50th to 55th percentile is developed. Salaries paid aim at the mid-point of this salary scale but reflect the individual's performance, tenure in the job, etc. The salaries of the executive officers are reviewed and adjusted yearly by the Human Resources Committee considering the individual performance and the Comparator Group.

Annual Incentive Compensation

The Company offers executive officers of the Company and of its Product Lines or business units the possibility to earn an annual bonus provided the Company achieves or exceeds its product line/business unit financial objectives and provided the executive officer or employee achieves specific personal objectives. The annual bonus for the product line or business unit executives and employees rests on financial objectives set against the budget in fiscal year, relatively in the achievement of the Return on Net Utilized Assets (RONA), operating income, and sales; the annual bonus for the Named Executives rests in the achievement of the budgeted net income and earnings per share. The combination of base salary and annual bonus are between the 50th percentile (median) and 55th percentile of the Comparator Group.

Target bonus is calculated based on the degree of achievement of the financial performance presented in the annual budget of the Company. In order to be eligible to receive bonuses based on financial performance the product line or

business unit shall have met at least 80% of its financial target budget. If such goal is achieved, the percentage of target bonus could go from 0% to 170% depending on the level of achievement.

The final eligible target bonus to be paid to each executive officers and key employees will also take into account the performance of the Company as a whole based on net income. Therefore, the total annual incentive compensation paid based on the Company's performances is composed of the following:

- 75% of the target bonus is based on the product lines and business units performances; and
- 25% of the target bonus is based on the Company's performance as a whole.

Finally, the executive officers' bonus will be calculated based on the individual performance; from 0% for "below expectations" to 120% for "outstanding contribution". The Human Resources Committee may, from time to time, exercise its discretion to allow that the annual incentive compensation otherwise payable in accordance with the Company's policies be varied on the overall performance of the Company and exceptional market conditions. The Human Resources Committee also reserves the right to recommend to the Board of Directors to waive minimum requirements for the annual incentive compensation when exceptional strategic achievements that could increase the long-term value of the Company are realized during the year.

The Company's achievement of financial objectives and performance as a whole and per product line for the fiscal year ended March 31, 2010 ranged from 63% to 130%.

For the fiscal year ended March 31, 2009, the following Annual Incentive Compensation was paid in fiscal year 2010 to each Named Executives:

Named Executives	Annual Incentive Compensation	% of Base Salary
Gilles Labbé	568,701\$	142%
Réal Bélanger	330,000\$	121%
Martin Brassard	187,000\$	80%
Richard Rosenjack ⁽¹⁾	207,176\$	69%
Michael Meshay ⁽¹⁾	228,984\$	94%

(1) All amounts were paid in US currency at a translation rate of CAN\$1.0904 (corresponds to the average rate for the period of April 1, 2009 to March 31, 2010)

For the fiscal year ended March 31, 2010, the following Annual Incentive Compensation was paid in fiscal year 2011 to each Named Executives:

Named Executives	Annual Incentive Compensation	% of Base Salary
Gilles Labbé	396,000\$	98%
Réal Bélanger	240,000\$	87%
Martin Brassard	260,000\$	101%
Richard Rosenjack ⁽¹⁾	92,684\$	32%
Michael Meshay ⁽¹⁾	87,232\$	37%

(1) All amounts were paid in US currency at a translation rate of CAN\$1.0904 (corresponds to the average rate for the period of April 1, 2009 to March 31, 2010)

Long-term Incentive Compensation

The establishment of a balance between short and long-term compensation is essential for the Company's performance. For this reason, the Company has adopted a Stock Option Plan in 1986 (amended in 1988, 1990, 1996, 1998, 1999, 2000, 2002, 2003, 2006 and 2007) allowing the grant of options to officers and certain key employees of the Company and its business units. Reference is made to the description of such plan under the heading "Stock Option Plan" above.

In general, the Board of Directors determines the number of options granted annually by multiplying the base salary of the Named Executives by a multiple varying between 30% and 50%, established according to the level of responsibility and authority of such Named Executives. The total amount of stock options issued over the past years is looked at but has not a material impact on the number of options to be granted to the employee. The options are granted at market value at time of grant and may be exercised over seven years. These options are performance based and vest, not only over time but also when a targeted accretion of the Company's share on the TSX is met. More specifically, options granted vest upon each anniversary at a rate set forth in the stock option agreement provided that the average closing price of the Common Shares on the TSX, for 20 consecutive trading days, exceeds or equals the conditional share price set forth in the agreement at the time of the grant of the options. Rights are

given to exercise the vested options within a 90 day or 180 day period following termination of employment, death or retirement.

On September 2, 2004, the Board of Directors of the Company has also approved an employee stock purchase plan to induce key employees to hold, on a permanent basis, Common Shares of the Company. Reference is made to the description of such plan under the heading "Stock Purchase and Ownership Incentive Plan" above.

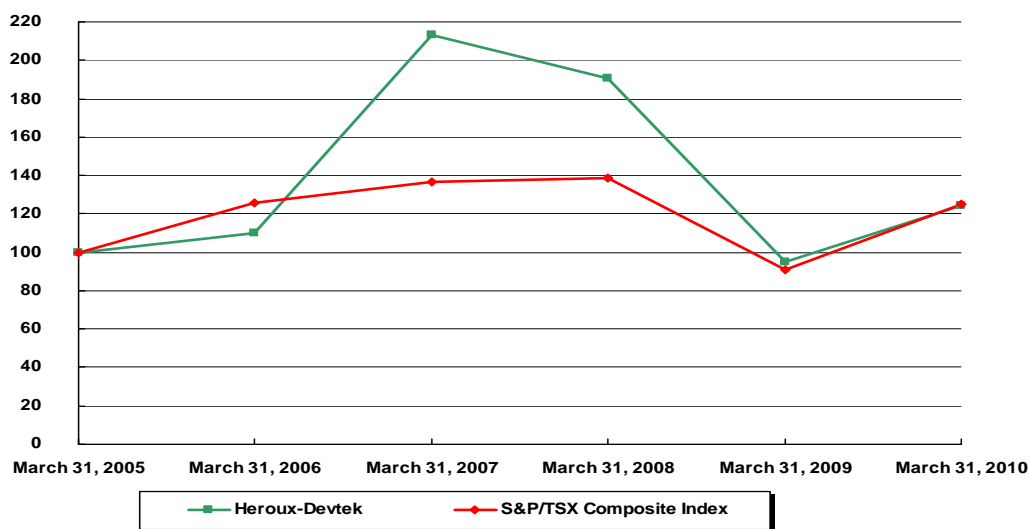

Benefits and Perquisites

The Company's executive officers benefit program includes life, medical, dental and disability insurance. Perquisites consist of car allowance and reimbursement for club memberships, medical and financial services. Such benefits and perquisites are designed to be competitive with the Comparator Group and other comparable Canadian enterprises.

The compensation policy seeks to primary reward the superior performance through both individual and corporate results and the increased shareholder value. In reviewing executive officers compensation, the Human Resources Committee will take into consideration numerous factors that are not easily measurable but which consider the individual performance, experience, integrity, and peer appreciation.

The following graph compares the total cumulative shareholder return for \$100 invested in the Company's Common Shares on March 31, 2005 with the cumulative total return of the Toronto Stock Exchange's S&P/TSX Composite Index (formerly TSE-300 Index) for the five most recently completed fiscal years.

PERFORMANCE GRAPH

	March 2005	March 2006	March 2007	March 2008	March 2009	March 2010
Héroux-Devtek	\$100.00	\$110.24	\$213.09	\$190.47	\$95.23	\$125.04
S&P/TSX	\$100.00	\$126.00	\$136.96	\$138.89	\$90.72	\$125.23

The trend shown by the above graph is a positive total cumulative return for a shareholder over the past five years. During the same five year period, total compensation received by the Named Executives is generally in line with the trend. For the last year, the majority of the Named Executives' total compensation was lower than the previous year since the Company's results were impacted by certain decelerations of production schedules and push-outs on commercial aerospace segment programs as well as by the impact from softer conditions in industrial markets. The Vice-President, General Manager of the Landing Gear Product Line total compensation was higher this year because of the overall landing gear sales increases and higher production efficiency of this product line.
